SPECIFICATION AMENDMENTS

Please amend the specification as follows:

Substitute the paragraph [0026], line 5, as originally filed, with the following:

"virtual tuner ~~128~~ 138 is executed on the client 104(n) to manage execution of one or more of"

Substitute the paragraph [0041], lines 6-10, with the following:

"execution. The applications 124(g) may include a variety of application types, such as a media player 442, managed ~~444~~ applications 444, native applications 446, and other ~~448~~ applications 448. Thus, the virtual tuner 138 allows different types of content to be output for rendering through user inputs 428 that are provided when interacting with the EPG 128, further discussion of which may be found in relation to FIGS. 6 and 7."

Substitute the paragraph [0048], line 1, with the following:

"At block 612, the virtual tuner ~~612~~ 138 chooses a corresponding one of the plurality of"
